My name is David Akesson, and I am a 10th grade student at The Browning School in New York City. I am passionate about science, athletics, and giving back to my community. As a TEAK Fellow since 2022, I have had the opportunity to push myself academically and develop leadership skills that carry into everything I do — from captaining sports teams to editing newsletters. Outside the classroom, I compete on the soccer and basketball teams, and I am always looking for opportunities to grow, collaborate, and make an impact. My goal is to pursue a college education in a STEM-related field, where I can combine my curiosity for science with real-world problem solving.

Resume
